Charlie Brewer’s Slider Company was started in 1970 after a lifetime of fishing experience by Charlie Brewer, Sr. This experience and desire to improve sport fishing led to the development of the Slider technique. Slider fishing is a simple do-nothing method for imitating nature. Slider fishing offers a fun and relaxing way to increase your catch. Light tackle is the approach used to fish Slider products. The Slider technique has been proven to be productive throughout the United States, Canada, Japan, Korea and in many other countries in all types of water and on many species of fish. Our hope is the products shown in this catalog will make the sport of fishing fun and productive for you. Please contact us for any assistance. GOOD FISHING!

5” Bass Worms

The 5” Bass Worm has been proven to be a bass catcher. The 5” Bass Worm features a soft, plastic body with a paddle tail. This worm can be fished in a “do-nothing” style by just using a steady retrieve, a pull and drop method, or just by crawling the bottom (polishing the rocks). Bass love it!

APPROXIMATE WEIGHT .148 OZ.
Packed 10 or 18

SWG517 - Pumpkin/Black Flake (actual size)

4” Solid, Glitter, Fire Tail, Laminates & Core Worms

The 4” Slider Worm was specially designed for Slider fishing. This is a straight worm with a small paddle tail that will not over-act the natural movements of nature. The 4” Slider Worm will match the size of the food that bass eat 80 to 90% of the time. Since the 4” Slider Worm is smaller, bass can inhale the worm quicker and easier. The result is you won’t miss as many strikes while fishing the Slider techniques of “sliding” or doing the “pull’n drop” methods of fishing the unique 4” Slider Worm.
